

# Australia's Most Innovative Motorhome is now ... Motorhome of the Year

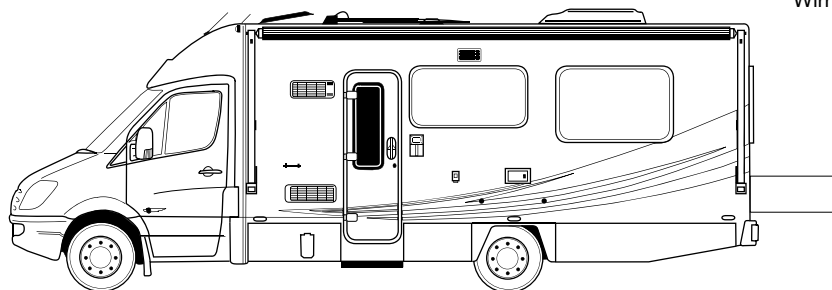

416 CDI Finalist 05'  
Wirraway 260 - Mercedes 518 CDI Long Wheelbase  
Winner - Motorhome over of the year  
Winner - Motorhome over \$120k

## Wirraway's Innovative Electronics

The electrical system is the most advanced, and yet the most simple to operate, in the world.

It has a EC325 power supply unit that displays an easy to operate menu, providing automatic water tank filling, electrical systems information and management for charging of the motorhome and vehicle batteries, with this system you can never have flat batteries. It also has an inbuilt solar regulator and a programmable timer to automatically operate your motorhome's - Lighting, Air conditioner or Diesel heating while you are away! See EC325 unit below.

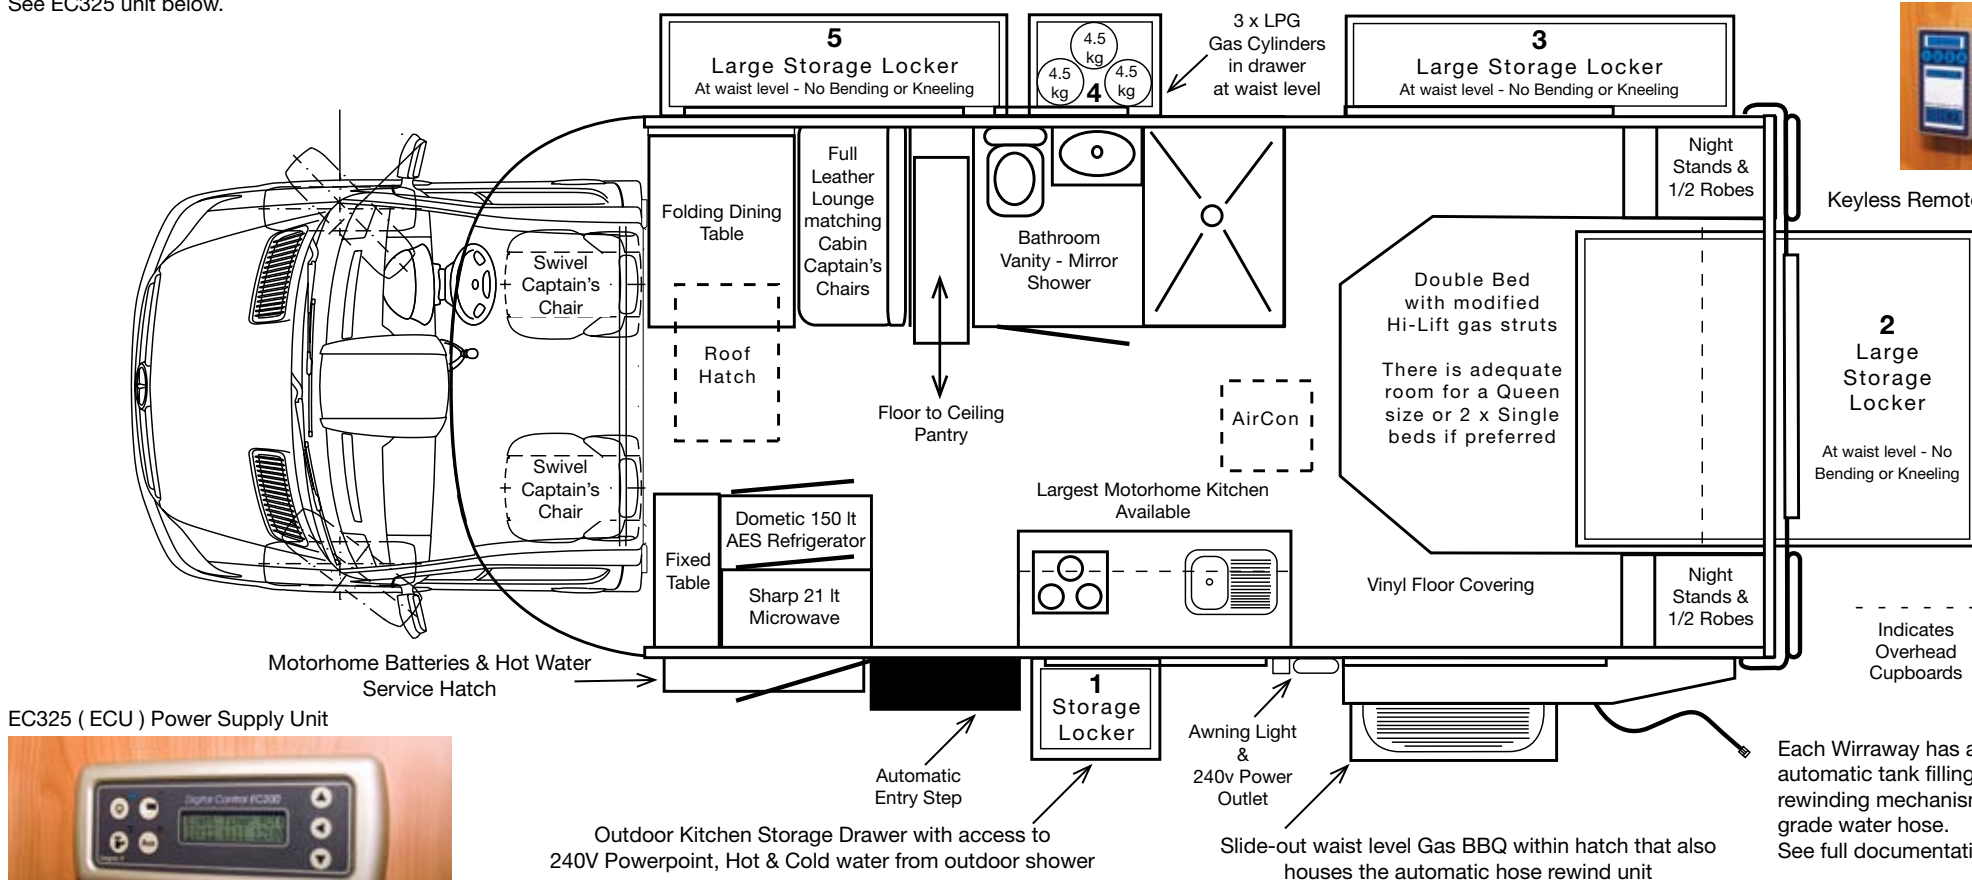

## Automatic - Remote Locking Drawers

When you enter your vehicle, there's a touch pad to simply select to open any one or all 5 drawers. Once remotely activated the drawer system looks after itself by automatically releasing and activating the pneumatic opening mechanism that unlocks and extends the drawer at waist level for you. Each drawer has a Locking Lid that doubles as a tabletop or convenient workbench, as drawer illustrations 1 - 5 below.

Keyless Remote Drawer Touch Pad

EC325 ( ECU ) Power Supply Unit
